PISTOL TYPE PNEUMATIC GREASE GUN

www.couplers.com

Foster Manufacturing is proud to now offer a Pistol-Type Pneumatic Grease Gun. This gun is ideal for many greasing applications, and features a trigger-release design for ease of reach for recessed fittings.

- Compact trigger-release design for easy reach in to recessed and hard-to-reach fittings
- Three way loading for versatility:
 - standard 14-oz cartridge (not included)
 - load with a pressure filler
 - bulk load
- 24 inch flexible hose for extended working reach
- 1/4 inch NPT thread air inlet
- Inlet air pressure of 35 to 150 PSI
- Rugged baked enamel and chrome finishes
- Comfortable hand grip and balanced design eliminate operator fatigue
- The angle design and light weight allow easy operation in cramped or hard to reach spaces
- Air vent valve allows trapped air in the tube to escape after filling
